Confused About How to Interpret The Clintons' Controversial Past?

Available in December, This New Political Exposé Is Required Reading for Anyone Involved in the Political Slugfests and Incendiary Wars of THE CLINTONS

Blood Moon proudly announces its intention of ringing in 2016 with the release of a CELEBRITY EXPOSÉ of Bill & Hillary Clinton that will be discussed by virtually everyone of interest, domestic and foreign, within the upcoming presidential elections. Its scathing descriptions and commentary on the scandals associated with the Clintons are poised to become the most entertaining read of the 2016 election cycle.

Bill & Hillary, So This Is That Thing Called Love, traces the couple's political debut in an Ozarkian backwater, their raucous occupancy of Arkansas' Governor's Mansion, and their trek toward and their eventual two-term occupancy of the White House. It ends with the drama of Hillary's departure from her husband's (deeply shaken) seat of power, and her ominous but passionate vow, "I'LL BE BACK."

"Enraged historic controversies associated with the Clintons extend much deeper than Hillary's alleged mishandling of Benghazi," said Danforth Prince, Blood Moon's president. "Our saga goes deep behind the D.C. camouflage for access to a detailed whirlwind of scandals associated with the Clintons up until their departure from the White House. The decades since the 1970s, when as an ambitious young couple, they set out to rule the Free World, have added perspective, some of it marinated in fury, some of it upholstered with a grudging respect. Our book, loaded with lurid but 'morally neutral' details, resuscitates carloads of Clintonian outrage, all of it bound into one juicy and delectable 'guilty pleasure.'"

So This Is That Thing Called Love: Supremely absorbing reading for news junkies and gossip mavens from across the political spectrum. ***Bill & Hillary***: The frustration of their tragic setbacks and their jubilant comebacks; years that were good and years that were horrible; their "Bimbo Eruptions," only some of which were broadcast, and how the Clintons played them; the then-President's impeachment proceedings; their maddening failures and their stunning achievements. ***Bill & Hillary*** is a gossipy but empathetic "only in America" portrait of a controversial marriage, a fandango about postmodern American politics unlike anything any politician has ever danced before.

Blood Moon Productions is a feisty and independent publishing enterprise dedicated to researching, salvaging, and indexing the oral histories of America's entertainment industry. As described by *The Huffington Post*, "Blood Moon, in case you don't know, is a small publishing house on Staten Island that cranks out Hollywood gossip books, about two or three a year, usually of five-, six-, or 700-page length, chocked with stories and pictures about people who used to consume the imaginations of the American public, back when we actually had a public imagination. That is, when people were really interested in each other, rather than in Apple 'devices.' In other words, back when we had vices, not devices."
