ABOUT HOW AMERICA INTERPRETS ITS CELEBRITIES

NEWS from Blood Moon about WOMEN WE LOVE: The Legacy of JACQUELINE KENNEDY ONASSIS has CONQUERED GERMANY.

Ever since JFK addressed millions of Germans ("*Ich Bin Ein Berliner*") during the Cold War, *Deutschland* has been fascinated by Jacqueline Kennedy. The First Lady, JFK's elegant and enigmatic wife, has been hailed as "America's Queen" by both her devotees and detractors.

This weekend, in addition to a flood of publicity from mainstream papers and tabloids in the U.S. and U.K., at least five German-language periodicals, including the deeply respected BILDE and BUNTE, each released eyebrow-raising appraisals of Blood Moon's newest release, a scandal-soaked "postmodern" biography of the most famous and iconic woman in American history.

God Had a Talent for Creating Extraordinary Women. One of Them was Jackie. This Book Explains Why.

Blood Moon Productions is a feisty and independent publishing enterprise dedicated to researching, salvaging, and indexing the oral histories of America's entertainment industry. As described by *The Huffington Post*, "Blood Moon, in case you don't know, is a small publishing house on Staten Island that cranks out Hollywood gossip books, about two or three a year, usually of five-, six-, or 700-page length, chocked with stories and pictures about people who used to consume the imaginations of the American public, back when we actually had a public imagination. That is, when people were really interested in each other, rather than in Apple 'devices.' In other words, back when we had vices, not devices."
